We train teamwork and leadership in a NICU Simulation environment, with the extremely premature newborn as the scenario. Some participants will participate in the simulation scenario and will receive structured feedback based on the video-record of the simulated scenario. We will discuss the “adult learner”, how to create a safe learning environment and how to give feedback using video.

Close collaboration with parents (full day)

Room Halldin, Södersjukhuset, 9:00 – 16:00
